

SHOPPING CENTRE LJUBLINO | Moskau | project information

Facts

Aim of Project

The Ljublino shopping centre, a 1.2 ha site in the Ljublino district of Moscow will provide Muscovites with a wide variety of retail. Perfectly located in the centre of Ljublino. The proposals comprise a hypermarket in the basement, department stores, shops, restaurants and small leisure facilities.

Design Concept

- Creation of twentyfour hour live, work and play environment .
- Direct access from the car park to the shopping mall.
- The unit sizes vary, creating a strategic mix of retail outlets previously unavailable in this district.
- Direct entrance to the metro and tram station.
- Anchored by a large hypermarket offer of mixed retail facilities in a distinctive environment

Facts
