

MEC Musical & Entertainment Centre | Düsseldorf | project information

Facts

Aim of Project

Creation of a new quarter in the most busiest part of Düsseldorf directly in front of the main station. Area which had become run-down and underused. Conversion of an existing building (warehouse / garage of postal services)
The musical, entertainment and shopping centre will provide the visitors with a wide variety of retail, leisure and entertainment choice in a single building. The multi use building will be an effective catalyst for the regeneration and development of these parts of the city.

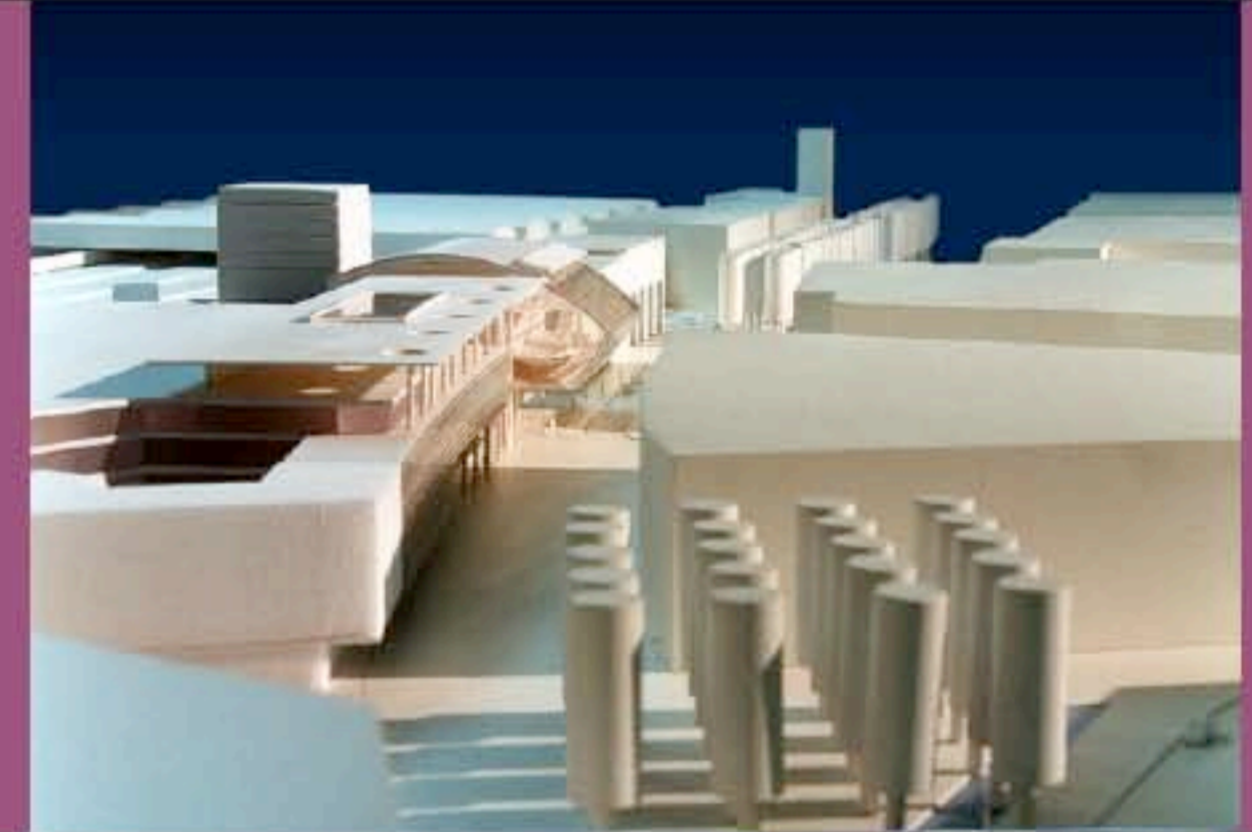

Facts

Design Concept

- Creation of a mix of uses
- Integration into the existent urban structure
- Musical theatre to attract people from all over Germany and to increase catchment area.
- Entertainment centre anchored by the musical theatre and the existing multiplex cinema
- Car park with 1.500 parkings
- Sustainable development - the existing building framework will be totally retained.

Features and Benefits

- Improved links for public transport, pedestrians and cars
- Introduction of restaurants, residential cafes and cinemas create mixed-use and a vibrant new quarter
