# MULTISTOREY CAR PARK | Hamburg-Harburg | project information

previous

## Aim of Project

The key objective to the new design was to create a safe and secure environment. Improvement of atmosphere and dwelling qualities for customers.

## Design Concept

- Facade designed with the function and effect of an „eye catcher“
- Creation of a safe environment for the public
- Additional lighting
- Open facade brings natural light flooding into the garage
- Curved facade attracts attention to the shopping centre

after refurbishment

## Features and Benefits

- New look for the car park and the shopping centre
- Improved attractivity and visibility for customers
- Elimination of dead areas within the garage

## Statistics

Car park with 900 parkings
